

**Other ways to promote diabetes awareness at your company during the month of November:**

- Create computer screen savers featuring a diabetes awareness theme, which encourages screening, living a healthier lifestyle and inspirational photos of colleagues touched by diabetes.
- Providing promotional items featuring nurse line phone numbers and reminders to get annual screenings at any events your company is sponsoring this month.
- Put up flyers encouraging patients, colleagues and guests to “know their numbers” (including blood glucose levels) and to schedule annual screenings to help prevent or control diabetes.
- Promote a diabetes awareness theme in the cafeteria and offer healthier choices.
